

WEIR MINERALS @ RWTH AACHEN UNIVERSITY

MEET & GREET 2022

Weir Minerals Venlo is a Netherlands based engineer to order business supplying large format precision capital equipment and aftermarket services to our global mining and minerals customers. Our GEHO PD pumps and Enduron HPGRs are market leaders in their respective market segments. The Venlo business is the spearhead for Divisional OE sales and Integrated Solutions. The energy and water savings brought by our products and solutions mean that we are at the forefront of making the mining industry more sustainable.
